All categories selected will be shown on your Certificate of Registration and the website.
Categories will be charged at the rate on the Registration Form.

Are you currently assessed or accredited to any other relevant quality management systems relevant to legionella control? For example ISO9001, ISO14001, ISO18001 or similar systems.

*Notes on completing this form

All services that you offer, advertise or implement must be listed on your Areas of Interest Form.

All categories selected will be shown on your Certificate of Registration and the LCA website suppliers directory and will be visible to service users.

The green boxes indicate the major categories that your organisation offers; you will be charged for each of these main categories that you tick.

The white boxes indicate sub-categories within your main area of expertise and it is important that you complete these boxes appropriately as we will cross reference these to your advertised services and your actual services at our audit.

Categories and sub-categories are shown on the LCA website suppliers directory to give more information on the services you offer. You will not be charged for these sub-categories.

Your registration will be delayed if any information is not completed correctly and needs further clarification.

If the services are undertaken by a sub-contractor please tick the white box.

If this sub-contractor is LCA registered please tick the blue box.

Please make sure that you sign and date this form, keep a copy of this sheet for your records and return the original to us with the re-registration form. **You are required to complete a form each year even if the details have not changed.**

The legal duty to comply with relevant health and safety legislation (including avoidance or control of risk to exposure to Legionella bacteria) rests solely with the statutory dutyholder, being either the employer or the person in control of the premises or systems where any relevant risk is present, and this cannot be delegated. Specific functions (e.g. carrying out risk assessment) can be delegated and the Legionella Control Association (LCA) Code of Conduct is designed to help service providers, who also have duties under health and safety legislation, to establish appropriate management systems for the prevention or control of risk from Legionella bacteria. The LCA assesses the management systems of LCA members upon initial registration, reviews annually upon re-registration, and re-assesses by annual company audits. The LCA cannot and does not carry out other regular supervision of its members' commitments to the Code of Conduct nor their compliance with other LCA guidelines. A valid LCA certificate of registration (which is only valid if the Company named is listed on the LCA website www.legionellacontrol.org.uk/directory.php) confirms only that a service provider has satisfied LCA requirements at registration, re-registration and its most recent company audit. It does not confirm the service provider's actual or continuing compliance with their commitments to the LCA Code of Conduct and/or other LCA guidelines. The LCA does not approve specific products or services as being effective in controlling Legionella or verify the competence of service providers' staff and sub-contractors, which is the duty of the service provider and the statutory dutyholder. The LCA accepts no liability for any omission or any act carried out in reliance on the LCA Code of Conduct or other LCA guidelines, or any loss or damage resulting from non-compliance with such documents.
