

Change to Response Time for Actions at LCA Company Audit

Please note that in the 2017-2018 period the LCA requires that all non-conformances, as set out in the Company Audit report and Checklists, must be satisfactorily completed within 3 months of the date of the Company Audit report.

To meet this requirement, it will be in your interests to respond to all non-conformances within 6 weeks. This should give sufficient time to address final completion within 3 months.

In the case of non-completion after 3 months then your company name will be removed from the LCA website until a satisfactory completion is achieved.

In the case of prolonged failure to complete, your registration will be at risk of termination. If you then wish to resurrect your membership, it will be necessary to re-apply, which will involve you in the added expense of making a new application.
